SOCIUS® INGREDIENTS

Socius Technical Center

Innovate with us at our Technical Center for R&D, Formulation, Optimization and Prototyping

At Socius Ingredients, innovation begins at the Socius Technical Center - a state-of-the-art facility where science, creativity, and collaboration unite to accelerate product success.

Our specialized R&D team and advanced pilot-scale capabilities help customers develop, optimize, and reformulate products to meet market, regulatory, and consumer demands.

Our Technical Capabilities

Pilot Scale Innovation

Test and refine formulations under real-world conditions before full production.

Prototyping Excellence

Create high-quality prototypes optimized for texture, stability, and performance.

Formulation Optimization

Adapt to trends, regulations, and consumer preferences - improve performance without compromise.

Collaborative Expertise

Work side by side with our scientists - from concept to pilot to launch.

Equipment Snapshot

MicroThermics® Continuous Processor

Thermomix® & Lab Bench Systems

Stephan® Cooker

Admix High-Shear Mixer

Texture Analyser

Rheometer

LumiSizer® Stability Analyzer

Continuous Ice Cream Freezer
